

SEPARATING PEOPLE FROM HAZARDS

A full-page background image showing an oil and gas worker in a white hard hat, safety glasses, and large earplugs. The worker is wearing an orange safety vest and is looking towards the right. The background is filled with industrial equipment, including yellow pipes and white machinery. A red and white striped hazard sign is visible in the upper left. A white text box is overlaid on the lower left portion of the image.

Safety Solutions for **Oil and Gas Sector**

KEEP YOUR TEAM SAFE FROM HAZARDS

In the high-stakes world of oil and gas, safety is paramount. Our innovative safety solutions are designed to protect your workforce, assets, and the environment, ensuring your operations run smoothly and efficiently.

Kee Platform[®]

FLEXIBLE, DURABLE, AND EFFECTIVE.

Kee Platform work platform use Kee Lite or Kee Klamp tubular fittings to construct platforms to suit any application. Static work platforms are flexible, durable and effectively protect workers from the hazards of slipping and falling when working at height.

Lightweight

Available in lightweight aluminum when being built for rooftop applications.

Ease of Use

Modular design for fast, easy assembly. Preassembly is available.

In Stock Materials

Manufactured using stock items provides shorter lead times

OH&A Compliant

Compliant with OH&A work stand safety standards.

Design Options

- **Decking:** High-grade nylon treads, aluminum or fibreglass grating.
- **Base Feet:** Non-penetrating, penetrating or adjustable.
- **Bespoke Options:** Variable heights and lengths available to suit project requirements.

Professionally Delivered and Installed

Each of our platforms is designed to suit a specific application and is built in accordance with all safety standards. If the platform design needs to be modified to fit a different function, Kee Safety can easily reengineer the existing platform to meet new requirements.

Benefits

- ▶ Excellent strength and corrosion resistance
- ▶ Custom designed platform
- ▶ Short delivery lead times
- ▶ Minimal on-site disruption
- ▶ Safety assured when used correctly

Kee Guard[®]

NON-PENETRATING GUARDRAIL

Kee Guard non-penetrating guardrail is the industry's leading modular, free-standing safety railing system, which is not fixed directly to the surface. OH&S compliant and appropriate for almost any flat roof up to a 5° slope. – keeping your workforce safe.

Versatile

Can be used on everything from complex roof shapes to those that change in elevation

Easy to Install

To assemble it, you will need a torque wrench or hex key, making it incredibly easy to install.

In Stock Materials

Manufactured using stock items provides shorter lead times

OH&A Compliant

Compliant with OH&A work stand safety standards.

Design Options

FOR NARROW SPACES

FOR METAL ROOFS

FOR LADDER ACCESS

Kee Line®

ENERGY ABSORBING LIFELINE SYSTEM

Freedom to Work. Securely Attached. The Kee Line horizontal lifeline system is designed to provide workers with freedom of movement while securely attached to the lifeline at all times.

Corrosion Resistant

A combination of galvanized and stainless steel components ensure longevity.

Third Party Testing

We test internally and verify externally to maximize peace of mind.

Maximum Spans

Maximum span of 39' allows 3 users at one time.

Qualified Installers

Kee Safety requires that Kee Line be installed by trained and certified installers.
